

Solid Wood. Solid Service. Solid Quality.

The New Oak Tree is a Canadian retailer offering fine quality hand-crafted solid wood furniture.

In addition to offering a wide range of styles from traditional to contemporary we also offer 7 different wood species in a huge selection of colors to fit any décor. In addition we specialize in customizing furniture to meet the needs and requirements of our customers on a daily basis. We can modify everything from size to design with a vast selection of colors and often create furniture from drawings or photos to accommodate our client's specific demands. Our products are exclusively built in the USA on an individual basis and not mass produced thus offering this unlimited choice in design as well as superior quality that is destined to last for many years.

Our product is produced to strict standards in every case. Dove tail joinery and mortis and tenon joints are considered standard construction features and in addition the backs on each piece are cut to fit and screwed in place to assist in assuring the cabinet integrity and keeping everything square. This adds to the quality and durability of each and every piece which is reflected in our lifetime unconditional warranty.

We have many options including leasing in terms of 24 or 36 months and can also customize the terms to meet the clients needs. Furniture can also be purchased outright or in some cases short term rentals.

I am sure you will enjoy a visit to our website at www.thenewoaktree.com. I would be happy to set up a meeting with you to assist in the relocation process and find just the right furniture to satisfy any situation.
